Hello, I'm going to show you how to take out a subscription within Express Me. If you prefer, you can also use our platform to take out a subscription. Otherwise you can do it via the Play Store or the App Store; that works as follows from the app.

We can click on the profile icon at the top right and then go to App settings. Then we can scroll down a bit. There we see subscribe to Express Me. You have the different options here: you can pay yearly or monthly, and then you can click on Start Subscription. For me the values are a bit different, because I have a test account.

But let's say it also works this way via the App Store. We can simply click on Subscribe. The payment is then processed.

And then you just wait for the payment confirmation. It can sometimes take a few seconds. And then the subscription is taken out. And all you have to do is continue to the app.

And this is how you can take out a subscription.
