

Change tile image

Step-by-step instructions for Change tile image in Express Me.

Watch the video, follow the steps, or open the complete transcript for a text version of the instructions.

Step-by-step instructions

1

Enable edit mode

Open the app settings and turn on **Edit mode**.

2

Open the tile menu

Return to the home screen and tap the three dots on the tile whose image you want to change.

3

Choose an image source

Open the **Change image** section and pick an option, such as **Take new photo** or **Choose from gallery**. Take a photo with your camera and confirm it, or select an image from your gallery.

4

Save the change

Tap **Save** in the top right corner to apply the new image to the tile.

I'm going to show you how to change a tile's image in the app.

To do this, first go to the app settings and make sure edit mode is enabled. Then return to the home screen and tap the three dots on the tile whose image you want to change.

Under the "change image" section, you have various options, such as taking a new photo or choosing an image from your gallery. If you choose "take new photo", for example, you can take a photo directly with your camera. After you've taken and confirmed the photo, tap "save" in the top right corner to apply the change.

Your tile now has your new image and is ready to use!
