

Remove own speech tile

Step-by-step instructions for Remove own speech tile in Express Me.

Watch the video, follow the steps, or open the complete transcript for a text version of the instructions.

Step-by-step instructions

1

Open the edit mode

Tap the profile icon in the top right and choose **Start editing**.

2

Open the tile

Tap the three dots on the tile with your own recording.

3

Open edit speech

Scroll to **Edit speech**.

4

Delete the recording

Tap **Delete custom speech**.

5

Save

Tap **Confirm and save**; the tile uses the normal voice again.

Hello, I'm going to show you how to easily remove your own speech that you've set for a tile. For taxi, I just set my own speech.

This is the example. But I want to remove this. I can do that by going to edit mode. Then we click on the blue profile icon at the top right.

Then we go to start editing. And then we see that the taxi tile now has three dots. If we click on that, we just need to scroll down a little bit, and then we see adjust speech there. Then we can click on delete recorded speech.

And indeed, our own recorded speech is now gone. We just need to click save. If we then exit edit mode, we can click on taxi. And then we hear the normal voice again.
