Step-by-step instructions

1

Enable edit mode

Open settings via the profile icon in the top right, and enable **Edit mode**.

2

Open the tile menu

Return to the home screen and click the three dots of the tile whose name you want to change.

3

Choose change name

Select **Change name** at the top of the menu.

4

Enter the new name

Type the new name in the text field (e.g., change "hello" to "greeting").

5

Save the change

Click **Save** in the top right to confirm the change. The tile updates with the new name, and its pronunciation changes accordingly.

I'm going to show you how to change a tile's name in the app.

To do this, first go to settings by clicking on the profile icon in the top right. Make sure edit mode is enabled.

Then return to the home screen and click on the three dots of the tile whose name you want to change. At the top you'll see the option "Change name".

Here you can type what you want. If you want to change "hello" to "greeting", for example, just type the new word in the text field.

Then press the save button in the top right to confirm the change. The tile will now be updated with the new name, and the pronunciation will change accordingly.
