

Configure speech sentence

Step-by-step instructions for Configure speech sentence in Express Me.

Watch the video, follow the steps, or open the complete transcript for a text version of the instructions.

Step-by-step instructions

1

Open the edit mode

Tap the profile icon in the top right and choose **Start editing**.

2

Create a new tile

Tap **Add new tile**, choose **Word** and enter a name, for example **Taxi**.

3

Type the sentence

Enter the sentence under **Speak a sentence**, for example **I want to order a taxi**.

4

Create the tile

Tap **Create tile**, choose an image and tap **Confirm position**.

5

Test the tile

Tap the tile; the app speaks the sentence instead of the word.

Hi, I'm going to show how to configure a sentence for a word tile, so the sentence is spoken instead of the tile's title. Let's make an example.

We start by going to edit mode. We tap the profile button at the top right. Then go to start editing.

And then we'll create a new tile. We'll go for a word tile, and as an example we'll create a taxi tile. Because what we can do is, instead of speaking taxi, we can say: I want to order a taxi.

And then we can create the tile. We can also optionally choose an image from the internet. Let's say we just grab this taxi.

Then we tap confirm position. And what we can do then is: if we now tap on taxi, we hear the following. And that's how you can configure a sentence that is spoken instead of the tile's word.
