Hello, I'm going to show you how to change the title of a tile.

In this case, let's change the taxi tile. We can do this by going to the edit mode. We start by clicking the blue profile icon at the top right.

Then we click start editing. Then we see here that three dots have appeared at the top right of the taxi tile.

If we click on that, we then get an overview where we can change everything. In this case, let's say we change taxi to taxi 2.

Then we can click save at the top right. And then we immediately see, if we exit the edit mode, that the tile has been renamed to taxi 2.
