Hello, I'm going to show you how to adjust the tile size. We can do this by going to the settings.

Let's start with the blue icon at the top right. Then we can go to app settings. And there we see many different options.

If we scroll down a bit, we have tile size here. For example, I can choose extra large tiles.

If we go back, we see that the tiles are indeed a lot bigger. The other option is to make them smaller. We go to the settings again.

We scroll down a bit again. Let's say small tiles. And then we see that the tiles have indeed become very small.
