

Pronounce tile

Step-by-step instructions for Pronounce tile in Express Me.

Watch the video, follow the steps, or open the complete transcript for a text version of the instructions.

Step-by-step instructions

1

Enable automatic tile pronunciation on touch

Open **Settings** and enable the **Automatic tile pronunciation on touch** option.

2

Tap a tile or category

Tap any tile to hear it spoken aloud. Tap a category to hear its name spoken automatically.

I'll show you how to make tiles automatically speak when you tap them.

To do this, make sure the option "automatic tile pronunciation on touch" is enabled in settings.

Once you've done this, tiles will automatically be spoken as soon as you tap them. This also applies when you navigate to a category - the category name will then be automatically spoken too. You can of course turn this feature off again whenever you want.
