Step-by-step instructions

1

Tap to speak

Tap a word tile and the app speaks the word, for example **Yes**.

2

Record your own speech

You can also record your own voice; the tile then plays your recording.

3

Speak a sentence

You can configure a sentence that is spoken instead of the word.

Hello, I'm going to explain what you can do with a word tile. Here you see three word tiles: yes, no and hello.

There are several options to use this. The simplest is just having the phone say 'yes'. Yes.

But another option is that you record your own speech. An example of this is this. No.

Well, there I recorded my own speech to be able to say no. And finally, you can also configure a sentence to then do this. So you have several options to configure the word tile.
